If you work within the private security industry and are keen to learn about Strategies To Combat Security Threats, Cyber Warfare as the Emerging Face of New Terror, Converging Intelligence With Security Controls In The Real & Cyber World and more, visit our website and find out more.

### Workshop

#### IED WORKSHOP 2017 6 April (Wednesday)

First of its kind in Asia! Presented by Certified Counter Terrorism Practitioner (CCTP) and Milipol Asia-Pacific. Get an exclusive insight into ISIS bomb making and understand one of the reasons how ISIS is able to defend large cities against the Iraqi army and the Kurdish Peshmerga security forces as the coalition forces are fighting their way through to the city of Mosul. In the workshop, we look at what TTPs (tactics, techniques and procedures) ISIS have been so effective in using against all those that stand in their way.

**\*\*Please take note the workshop is open for law enforcement, military and security professionals only**
