About Milipol Asia-Pacific

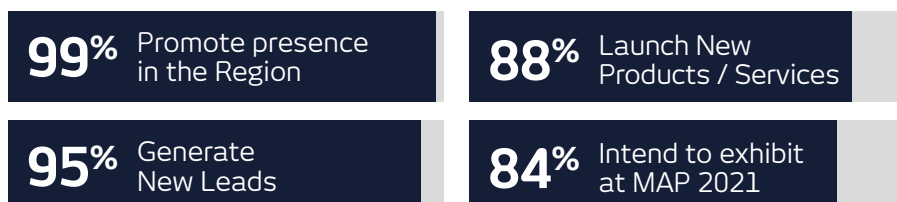

Milipol Asia-Pacific is the region's leading international event for homeland security. It has achieved an enviable reputation and established itself as the region's flagship "must-attend" Exhibition and Conference focusing exclusively on Counter Terrorism, Internal State Security, Law Enforcement and Civil Defence in the Asia Pacific Region and beyond. For over 30 years, the MILIPOL brand has been synonymous with the highest quality, international events focused on Homeland Security. Over the years, the brand has proudly presented Milipol Paris and Milipol Qatar.

As a reflection of the ever increasing roles and responsibilities of the private / commercial security sector in public safety, its clear that much of this duty is increasingly intertwined alongside the Government security forces so as to enhance national resilience and enhance public safety. Milipol Asia Pacific now unifies the Government and Commercial security sectors by incorporating Commercial Security Asia (ComSec Asia) alongside Milipol Asia-Pacific to now provide all our participants a fully integrated security event for both public and private sector security.

Why Milipol Asia-Pacific?

Market Trends

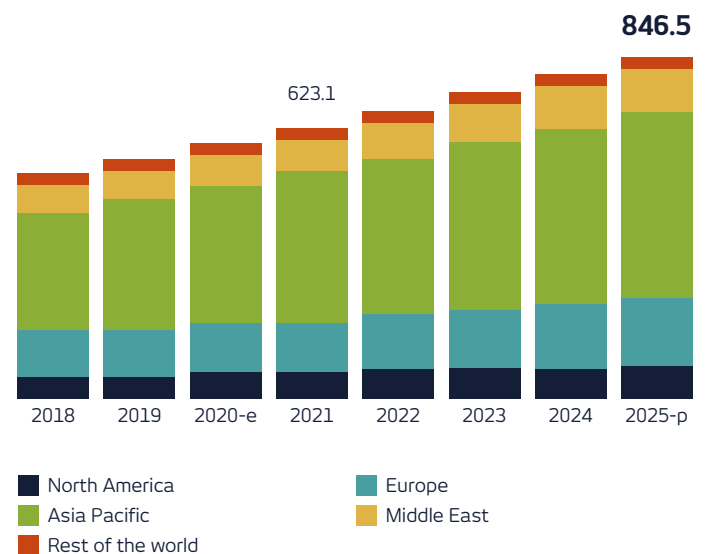

The market in Asia Pacific is projected to witness the highest CAGR from 2020 to 2025

The homeland security and emergency management market in Asia Pacific is projected to register the highest CAGR during the forecast period. Rising terrorist activities, geopolitical conflicts, strikes and protests, chemical attacks, and natural disasters have led major homeland security and emergency management solution providers of the region to develop enhanced techno-efficient homeland security and emergency management systems and equipment. The homeland security spending of China, Japan, and India has been increasing in recent years due to increased possibilities of being targeted by attacks. The Asia Pacific region has also been experiencing instances of terrorist attacks and cyber-attacks, which have caused significant damage to the region. Countries such as India, China, Australia, Japan, Malaysia, and Singapore have taken a stand to counter terrorism by adopting best-in-class physical and cybersecurity systems.
